Message from the torchbearers

AJAI GUPTA

Additional Commissioner,

A.K. Children Group of Schools

Providing education for more than 30 years has provided many memorable experiences and learnings. In my role as Chairman, it is my responsibility to build a structure that allows those invaluable experiences to be used to establish new goals and roles for the team, as well as an innovative learning system for future generations. Our objective is to instil in these kids a sense of curiosity, awareness, and constructiveness so that they can look forward to the future with smiles and confidence.

ARCHANA GUPTA

Educationist and Author,
Director- A.K. Children
Group of Schools

We at the A.K. Group of Schools believe that delivering education to preschoolers has various aspects and roles in which we not only educate but also learn from them. Our objective is to pursue values, provide a safe and secure environment, and give them exposure to great learnings.

ANUBHA GUPTA

Founder, A.K. Smartshala
Director-Principal -
A.K. Children Play School

With over eighteen years in early childhood education, I've gained insights into preschoolers' psychology, challenges, and the expectations of their parents. At A.K. Smartshala, we believe that true learning emerges from the environment, not just from books. Our mission is to close the books and open the minds of children. We embrace this philosophy by encouraging critical thinking through play-based activities, allowing each child to explore and learn at their own unique pace.

Hello, budding entrepreneurs!

We're thrilled to know that you're ready to begin your preschool journey—and we're here to guide, support, and walk with you every step of the way. As fellow entrepreneurs, we truly understand the challenges, pressures, and uncertainties that come with starting something new.

The Challenges We Overcame

Running a standalone play school comes with its own unique set of expectations and hurdles. Although we began with an already established system and clear policies, we soon realized that the real challenge lay in adapting to modern marketing trends, building a strong social media presence, and embracing the digitalization of education.

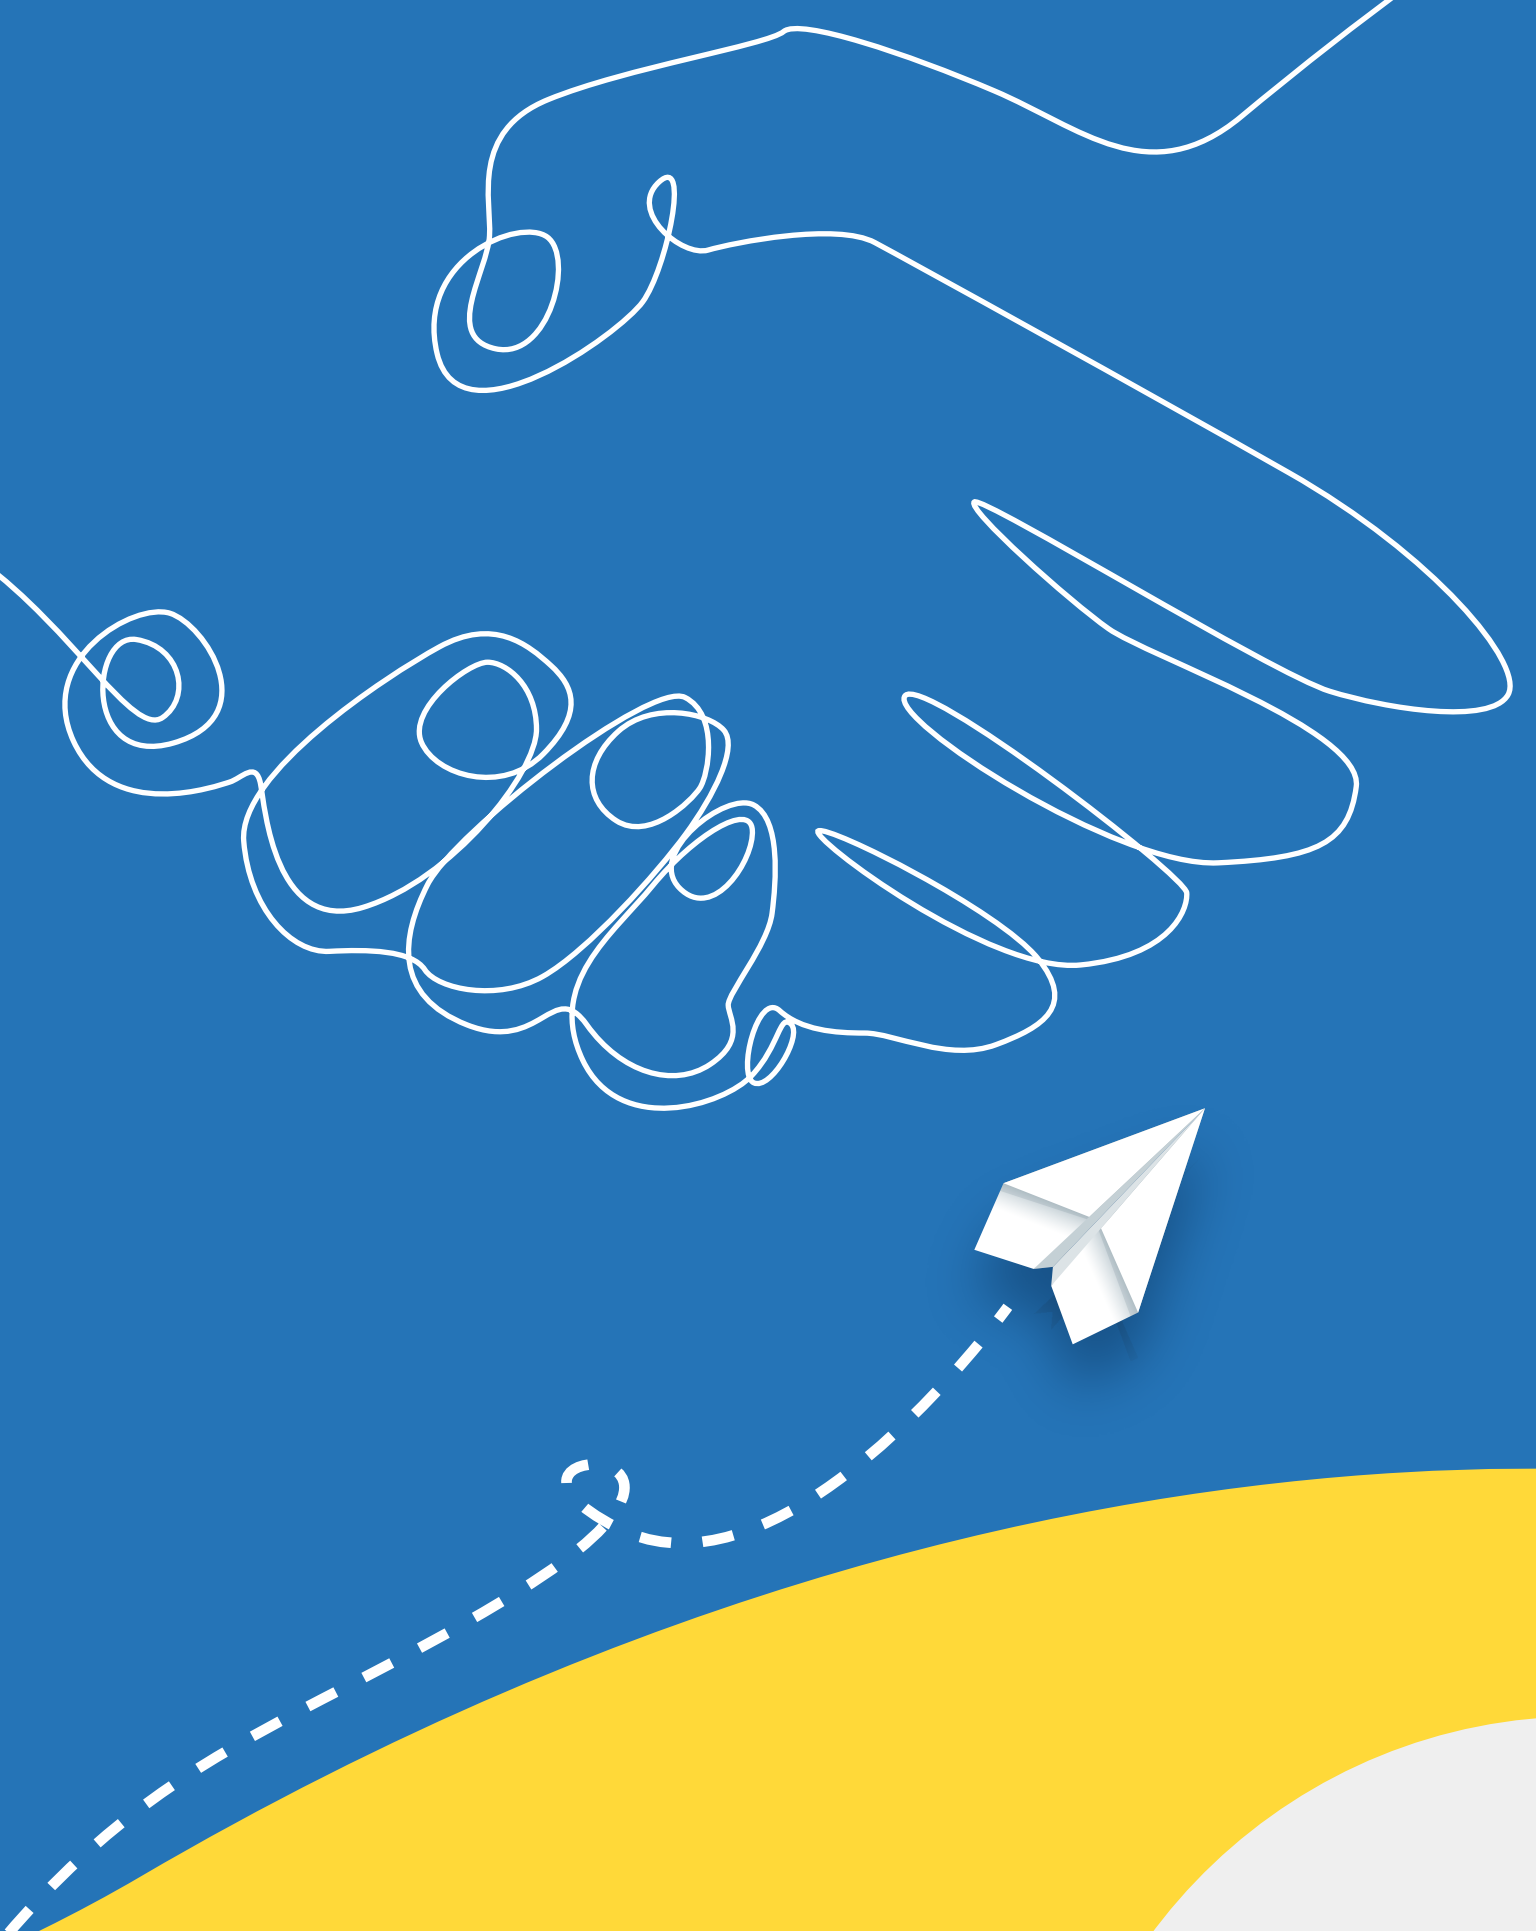

From struggling to find a reliable graphic designer to navigating the complexities of SEO for our website, the journey was far from easy. But each obstacle became an opportunity to learn, explore new territories, and truly understand the pain points and challenges that new preschool owners face today.

What is the Pahal Partnership Program?

Pahal is an initiative by A.K. Smartshala designed to provide a comprehensive support system for aspiring play school owners. Drawing from our rich experience, we understand new owners' numerous challenges—from setting up classrooms and recruiting teachers to handling marketing, SEO, and more. These hurdles often hinder success.

The Pahal Partnership Program simplifies the entire process by offering complete assistance in academics, bookkeeping, marketing, and school setup. Additionally, our one-on-one sessions share valuable business strategies and growth ideas to help you establish and scale your play school effectively.

At Pahal, we don't just offer services—we build partnerships. Your success is our mission, and together,
